I. COURSE PURPOSE

The purpose of this required course is to provide students with an overview of social welfare policy and the history of the social work profession and to help them think critically about the factors that have influenced the development of social policy and services historically. Values and concepts important to an understanding of social policies and services will be presented within the context of historical and contemporary perspectives. The primary conceptual framework will be based on the ecological perspective and the focus of this course will be on vulnerable and displaced populations. To that end, students will be introduced to the historical development of institutional racism through social policy development and implementation.

By examining the history of social welfare and its values and concepts, students will begin to appreciate its influence on contemporary social policy and social service agency policy development. Students will also appreciate the importance of social welfare and the need to respect the diversity of populations in need when crafting policy solutions. The effects of policy and services are heavily considered in understanding social welfare policy and services.

III. COURSE REQUIREMENTS

A. Required Texts

B. **Recommended Texts**

C. **Course Assignments**

1. **Issue Brief:** Each student will be required to submit a 2-3 page Issue Brief on the topic they have selected for their paper. Guidelines for the paper will be handed out in class. Papers are due Class 4.

2. **Testimony Paper:** Each student will be required to attend a public hearing at the federal, state, or local level on a social welfare problem or social policy issue. You will be required to critically reflect on the hearing itself, and select the testimony from one witness that you will critique based on the content and style of delivery, using material provided in class. This paper should not exceed five pages, and is due Class 7.

3. **Final Paper, Analysis of Contemporary Social Issue:** Students will be asked to prepare a 10-15 page analysis of a contemporary social issue. The final paper will give students the opportunity to examine how events unfold over a period of time and to critically analyze how the convergence of political, economic and social factors influence the development of social policy. Students will select a social issue and collect articles, and other information related to this topic throughout the semester. Students will then write a paper which critically analyzes the data collected in terms of the political, social, and economic environment and how those environmental factors shape the development (or lack thereof) of a social policy response to the problem. The final paper will be due Class 11.
4. **Final Exam.** Students will take a cumulative final exam during exam week.
